Projects

January 2011 – Today : **AFS Logistics Consultant** at **ESPRIT** (Ratingen, Germany), in the fashion industry. SAP IS-AFS (Apparel and Footwear) + IS-Retail.

- Support and optimisation of the solution in the Customer Return's warehouse.
- Then in charge for Logistics of the topics of Reconditioning and Warehouse Capacity Planning.

October 2010 – January 2011 : **WM Consultant** at **ALCATEL-LUCENT** (Strasbourg), in the telecom industry.

- Support of the WM solution implemented in the warehouse in Marly.
- Participation to the group planning the implementation of QM in the warehouse in the goods receipt area.
- Resolution of bugs in the custom picking strategy and serial number management.
- Test of new functionalities in RF transactions.

January 2009 – July 2010 : **WM – SD – MM Consultant** at **RICHEMONT INTERNATIONAL** (Geneva, Switzerland), in the luxury industry. SAP Retail.

- Implementation of a new stock allocation functionality in the European distribution centre in Switzerland.
- IT Project Leader for the outsourcing of advertising materials to an external provider. Implementation of a Decentralized WM solution.
- Stock migration for French and Spanish Roll-outs.

April 2009 : **Traceability Expert** at **HEINEKEN** (Paris).

- Two days of expertise in order to explain how to replace legacy systems for traceability with SAP functionalities in breweries.

December 2008 : **WM Expert** at **TERREAL** (Paris), in the industry of terra-cotta products.

- One day of expertise in order to validate the options of a WM prototype.

January 2008 – December 2008 : **WM – HUM Consultant** at **GIVAUDAN** (Geneva, Switzerland), in the chemical industry.

- Roll-out of an Ecc6 solution in several warehouses in France and Switzerland.
- In charge of WM and HUM.
- Post go live support.

February 2008 – March 2008 : **WM – HUM - IS-AUTOMOTIVE Consultant** at **L&L PRODUCTS** (Alsace), in the automotive industry. SAP Ecc6 Automotive.

- Test of all logistics processes (MM, PP, SD, WM, HUM, RF) for an upgrade 4.6c Automotive to Ecc6 Automotive.
- Specific automotive scenarii : EDI, JIT, self-billing, ...

May 2007 – November 2007 : **WM - RF Consultant** at **SIDEL** in the packaging industry. SAP Ecc6.

- Replacement of the legacy RF solution and implementation of WebSAPConsole.
- Definition of the functional solution in the warehouse (WM).
- Functional specifications for the new RF transactions and management of the developments.

Mai 2007 : **WM Consultant** at **CAMPINA**, in the food industry. SAP Ecc6.

- WM trouble shooting before go live (3 days).
- Meeting with the top management of the company regarding logistics options (HUM, decentralised WM, ...) (1 day).

January 2006 – April 2007 : **Logistics Execution Team Leader** at **TRIUMPH INTERNATIONAL** (Obernai – Alsace) for a Roll-out in the Apparel and Footwear Industry. SAP 4.6c + AFS 3.0b

- Roll-out of one of the two biggest warehouse of the group in Europe.
- In charge of the Logistics Execution area (warehouse management, transportation with express delivery XSI, cross-docking, interfaces with a sub-system managing the conveyors, Radio Frequency and Value Added Service).
- Environment: SAP AFS, HUM, Decentralized WM.

September 2005 – December 2005 : **WM – HUM Consultant** at **SCHNEIDER ELECTRIC**, Electric Equipment Manufacturer. SAP Ecc 5.0.

- Member of the Logistic team, defining a worldwide Core Model (130 countries, 550 plants, 23000 users), with scope including APO, CRM, BW, TRM and Decentralized WM.
- In charge of some new functionalities introduced by SAP in 4.7 or 5.0, such as VAS (Value Added Services) and Cross-Docking.
- Aide to the Logistic team leader regarding the following of developments.

June 2005 – July 2005 : **WM – HUM – IS-Automotive Consultant** at **INERGY AUTOMOTIVE SYSTEMS**, Automotive Equipment Manufacturer. SAP R/3 4.6c + IS-A.

- Third mission with Inergy Automotive Systems.
- WM – HUM consultant in a team defining a worldwide Core Model.

February 2005 – May 2005 : **RF – SAPConsole Consultant** at **REXAM** (Paris and Chicago, USA), in the packaging industry.

- Replacement of the legacy RF solution and implementation of SAPConsole, during the implementation of SAP in 3 plants in the USA.
- Installation and customizing of a Telnet server. Customizing of the scanners.
- Definition of the functional solution in the shop floor (PP) and in the warehouse (WM).
- Functional specifications for the new RF transactions and management of the developments.

January 2005 : **LES – Transport Expert**, at **SALINS du MIDI**, Montpellier, in the food industry.

- 2 days - Presentation of the Inbound Transport functions of the Logistics Execution module in order to integrate the shipping costs in the moving average price of the materials transported.
- Customizing and prototyping of the solution. SAP R/3 4.7.

November 2004 – January 2005 : **WM – HUM – RF SAPConsole - IS-Automotive Expert** at **MOLEX AUTOMOTIVE**, Toulouse, in the Automotive industry. SAP R/3 4.7 + Automotive solution DIMP.

- 6 days - Audit of the ongoing implementation.
- Transfer knowledge about HUM and its integration within WM, QM and PP in an automotive plant. Focus given on : Production declarations of finished goods, back flush of components, RF transactions with SAPConsole, traceability and inter-plants transfers.
- January 2006 – August 2006 : remote consulting for the migration of a plant from a SAP 4.0 non-HUM warehouse to a SAP 4.7 DIMP HUM warehouse.

November 2004 : **Traceability Expert**, at **NORDIA**, Chambéry, in the Food industry. SAP R/3 4.7.

- 2 days - Transfer knowledge about the food traceability requirements included in the European Regulations 178 / 2002 and their implementation within SAP.
- Pre-sales and participation to the elaboration of the planning of the project

September 2004 – January 2005 : **MM - WM Consultant** at **BIO SPRINGER**, Paris, in the Food industry. SAP R/3 4.6c.

- Stabilization of the MM solutions before the Go Live in January 2005.
- Prototyping of the incoming LES transport functionality for the good receipt of raw materials and the transfers between storage locations and/or plants.
- Implementation of WM for the finished goods.
- Go-Live and post-go-live support.

September 2004 – October 2004: **WM – HUM – IS-Automotive Consultant** at **ENERGY AUTOMOTIVE SYSTEMS**, Laval (Automotive Equipment Manufacturer). SAP R/3 4.6c.

- Following an HUM audit I did in Laval in 2003, the objective of this mission was to build a prototype for the plant using HUM, WM, PP, SD, MM and SAPConsole.

November 2003 – August 2004: **Senior WM - HUM – Logistics Execution Consultant** at **GLAXOSMITHKLINE**, Evreux, then London (Pharmaceutical Industry). SAP R/3 4.6c.

November 2003 – February 2004 :

- **WM and HUM expertise** on the blueprint phase.
- Comparison between the logistics flows of a distribution centre in Evreux and the European SAP solution, based on a decentralised WM + HUM + RF SAPConsole.
- Knowledge transfer to the internal and external consultants.
- In charge of the Good Receipt flows and the integration between HUM, QM and WM.

February 2004 – August 2004 :

- **Senior WM – HUM Consultant** in the GSK worldwide Supply Chain Competency Centre in London.
- 2nd level Support in the WM, HUM, RF SAPConsole, PP-PI and QM area.
- Support to the go-live of a 2000 users French plant in July.

September 2003 - October 2003: **WM - HUM Expert** at **ENERGY AUTOMOTIVE SYSTEMS**, Laval (Automotive Equipment Manufacturer). SAP R/3 4.0b.

- Audit of the material flows in 1 plant in Laval, in order to replace the old material handling application named “solution étiquettes Unilog”.
- Pre-sales and participation to the elaboration of the planning of the migration project from 4.0 to 4.6c IS-Automotive 3.0.
- Knowledge transfer to the internal and external consultants.

June 2003: **HUM Expert** at **FEDERAL MOGUL**, Poitiers (Automotive Equipment Manufacturer). SAP R/3 4.6c + IS-Automotive.

- 2 days, in order to review the flow of the main products and present / customize HUM in a repetitive manufacturing and Sum JIT call environment.

June 2003: **Logistics Expert** at **THYSSENKRUPP Presta France SA**, Florange (Automotive Equipment Manufacturer). SAP R/3 4.6c.

- 2 days, in order to check the configuration and help to optimise the flows.
- PP : Optimisation of the Kanban process for some raw materials.
- LES : Optimisation of the creation of Transport documents.

***September 2002 – January 2004* : Senior WM / HUM and RF SAPCONSOLE Consultant at JACQUOT**, Troyes (Chocolate Maker) SAP R/3 4.6c.

September 2002 – March 2003 :

- Audit of the prototype for the central warehouse for the finished products
- Then in charge of all the Logistics Execution aspects of SAP : good receipts, storage, picking, packing and loading.

April 2003 – January 2004 :

- Go-Live and post-go-live support.
- Implementation of radio-frequency devices in the warehouse through SAPConsole.

***April 2001 – February 2003* : Senior WM / HUM and IS-AUTOMOTIVE Consultant at A.RAYMOND**, Grenoble (Automotive Equipment Manufacturer). SAP R/3 4.6c + IS-Automotive.

April 2001 – May 2002 :

- German Roll-out : Interface between SAP and a complex warehouse with conveyor belts and automated storage.
- Definition and customizing of the solution : good receipts, picking and packing, with radio-frequency.

June 2002 – February 2003 :

- French Roll-out : Migration from the version 4.0b to the 4.6c.
- In charge of the WM and/or HUM flows : the finished products warehouse, the inter-plant transfers and the multi-packaging for a material.

***March 2002* : WM Trainer at ZETES Consulting** (Brussels).

- * Preparation of the courses and customizing of an FI, CO, MM, PP, SD, WM, HUM environment from A to Z.
- Comparison between the products of ZETES (complex warehouses management with radio-frequency) and the corresponding functionalities in SAP (WM + SAPConsole + TRM + HUM).
- * Training of a group of 10 English-speaking people.

***June 2001 – December 2001* : Senior WM / HUM Consultant at PSA PEUGEOT CITROËN** (Paris), **as a subcontractor of SAP France**. SAP R/3 4.6c.

- Spare parts complex warehouses with radio-frequency and time optimisation.
- Intervention during the project, in order to help the team responsible of the Good Receipts, especially for the returns from customers, returns to vendors, subcontracting functionalities, and the integration between QM and Decentralized WM.
- Knowledge : Decentralised WM, SAP Console (RF), new modules TRM (time optimisation in the warehouse) and EHS (dangerous goods).

September 2000 – June 2001 : **Senior WM / HUM and IS-AUTOMOTIVE Consultant** at **SOEDIT** Paris (Automotive Equipment Manufacturer). SAP R/3 4.6c + IS-Automotive.

- Definition and customizing of the solutions (WM, production and shipping flows) with bar-coding and radio-frequency.
- Main contact of SAP France for the first HUM implementation in France (Handling Units Management).
- Part-time consultant MM-Purchasing during 3 months.
- 4.6c and AS 2.0 knowledge : HUM, returnable packaging, JIT calls, scheduling agreements.
- PP knowledge : repetitive orders, Kanban

November 2000 : **WM Expert** at **PLASTIC OMNIUM MEDICAL** (Lyon) in the Chemical industry. Pre-Sale analyse of a SAP R/3 4.6c implementation.

- 1 day of interviews, in order to decide if WM and HUM were required for this project.

September 2000 : **WM Trainer** at **AVENTIS** (Lyon) in the Chemical industry. SAP R/3 4.6c.

- 2 days of customizing and presentation of the WM functionalities to European users, in order to determine rules of the European WM core system.

July 1999 - May 2000 : **Senior MM Consultant and MM / WM Team Leader of the European Competency Centre** at **SMURFIT** (Paris) in the Paper industry (mills, corrugated and sheet plants). SAP R/3 4.0b implementation in about 250 plants in 7 countries (more than 3.000 end-users).

July 1999 - October 1999 :

- French Roll-up of the Core Solution (55 plants).
- **SAP MM Expert** : definition of the 2 main applications : purchasing of waste paper (mills) and paper reels good receipts (corrugated plants)

November 1999 - May 2000 :

- **MM/WM Team Leader of the European Competency Centre** (The Netherlands, England, Ireland, France and Austria) :
 - Leader of 7 English, Irish and French team members,
 - Responsible of the MM/WM customizing and solutions,
 - Hot-line in English,
